EXCEPTION TO STANDARD FORM 30 (REV.10-83)

1.Question: Is there a page limit for the Technical Proposal?

Answer: No

2. Clarification: Junior Engineer: The solicitation is in error. Junior Engineer's educational requirements should read bachelor' degree instead of doctorates degree. Also, 1) Concerning junior engineers and technicians. The solicitation is in error where it says ".... Junior engineer's can be fresh out of school with master's or doctorates in civil or mechanical engineering or have passed an engineer in training test...". This should read "bachelor's degree" instead of "doctorates". The "...or have passed an engineer in training test..." refers to those without a degree from an accredited college or university and should also apply to technicians. Technicians fall into the category with junior engineers and, though they do not need a college degree, must qualify as an engineer in training or equivalent. There is no need to cost technicians separately in the labor plan.

3.Question: What does the 25 page limit on Hypothetical Task include?

The response to the hypothetical task is limited to 25 pages not including cost estimates, funding or labor levels.
